

Position/Role:	PHP Developer
Company:	RentPro Limited
Location:	Warrenpoint, County Down
Salary:	£20-25k, depending on experience

The Company

RentPro Limited design and deliver Software-as-a-Service solutions to the residential property market, empowering letting agents, estate agents and landlords to more efficiently manage their property portfolios.

The Role

The role offers an excellent opportunity to an experienced PHP developer in web development within a small but growing software company. You will be involved in the full software development lifecycle including system architecture design, programming, bug-fixing and functional enhancements.

Experience and Skill Requirements

Essential

1. Honours degree in Computer Science, Software Development or related degree with significant IT/software development component.
2. At least 1 year's commercial experience in PHP/MySQL web development.
3. In-depth experience of object-oriented programming.
4. Excellent organisational and communication skills (both oral and written).
5. Ability and willingness to absorb new information and use it effectively.
6. Must be willing to work independently and must be highly motivated.
7. To be considered for this position you must be eligible to work in Northern Ireland.

Desirable

1. Honours degree at 2.1 or above.
2. Knowledge and prior experience with MVC frameworks.
3. Knowledge and prior experience with HTML, CSS, JavaScript and jQuery.
4. Knowledge and prior experience with Git and software development best practices.

To apply for this position, email us for an application form at careers@rentpro.co.uk.
